

**EIGHTY-SECOND NATIONAL CONVENTION
OF
THE AMERICAN LEGION
MILWAUKEE, WISCONSIN
September 5, 6, 7, 2000**

**Resolution No. 236: Extend Presumptive Period For Amyotrophic Lateral Sclerosis
(ALS) To Seven Years**

Submitted By: Veterans Affairs and Rehabilitation

WHEREAS, Amyotrophic Lateral Sclerosis (ALS) begins insidiously involving degeneration of the nerve cells either in the brain, the brain stem, or spinal cord, and is characterized by atrophy and almost always fibrillation of the muscular system of the body; and

WHEREAS, ALS in its primary stage is difficult, if not impossible, to diagnose since in this stage the condition may appear to be dormant with little or no progression of symptoms for many years, thus leading the individual and his doctor to believe that the condition has become arrested and nothing more is done to establish its diagnostic entity; and

WHEREAS, Some Gulf War veterans have been diagnosed with ALS several years following discharge from service and some veterans have been denied service connection because the condition was not diagnosed while on active duty and within the presumptive time frame; and

WHEREAS, Gulf War veterans diagnosed with ALS so far appear to be generally younger than the average ALS sufferers; and

WHEREAS, A presumptive period of one year from the date of termination of active duty is currently provided for ALS under Title 38, USC, Section 1112(a) is inadequate; now, therefore, be it

RESOLVED, By The American Legion in National Convention assembled in Milwaukee, Wisconsin, September 5, 6, 7, 2000, That The American Legion urge that legislation be enacted to extend the current presumptive period for service connection of Amyotrophic Lateral Sclerosis from one year to seven years from the date of separation from active duty.
