

**NINETY-SIXTH NATIONAL CONVENTION
OF
THE AMERICAN LEGION
Charlotte, North Carolina
August 26, 27, 28, 2014**

Resolution No. 148: Request Congress Provide the Department of Veterans Affairs Adequate Funding for Medical and Prosthetic Research

Origin: Maryland

Submitted by: Convention Committee on Veterans Affairs & Rehabilitation

WHEREAS, The Department of Veterans Affairs (VA) Medical and Prosthetic Research Service is very productive in advancing medical knowledge and improving health care for veterans and all other citizens; and

WHEREAS, VA has developed the cardiac pacemaker, nicotine patch, the concepts that led to the Computerized Axial Tomography (CAT) scan, and other medical breakthroughs; and

WHEREAS, Basic biomedical research provides the most rational and cost-effective means of preventive health care and provides treatments and cures for many diseases; and

WHEREAS, Advances in biomedical research lead to the creation of new knowledge in biotechnology and serve as a successful model in lowering long-term health care costs; and

WHEREAS, In 1998, VA realigned its research priorities in response to recommendations of the department's Research Realignment and Advisory Committee to better serve the needs of the veteran population; and

WHEREAS, The Quality Enhancement Research Initiative (QUERI) is a venture undertaken by the VA Medical and Prosthetic Research Service to establish a national system to translate research discoveries, innovation, effective and efficient diagnostic and treatment strategies into patient care; and

WHEREAS, QUERI is a comprehensive, data driven, outcome-based quality improvement program that will ensure excellence in all areas of Veterans Health Administration medical care: in-patient, out-patient and long-term care; and

WHEREAS, Continued research is urgently needed for many diseases if medical science is to overcome cancer, heart disease, AIDS, new strains of tuberculosis, mental illness, hepatitis and others, to help spare veterans and citizens from prolonged illness and permanent disabilities; and

WHEREAS, The need to reduce the nation's budget deficit must not compromise the efforts to maintain and improve health productivity and develop new preventive and therapeutic procedures through the Department of Veterans Affairs and other government agencies; and

WHEREAS, It is essential that Congress and the Administration support strong medical and prosthetic research programs within VA so that veterans and all citizens continue to benefit from the exceptional research capability of the department; now, therefore, be it

RESOLVED, By The American Legion in National Convention assembled in Charlotte, North Carolina, August 26, 27, 28, 2014, That The American Legion support adequate funding for Department of Veterans Affairs biomedical research activities; and, be it finally

RESOLVED, That Congress and the Administration encourage acceleration in the development and initiation of needed research on conditions that significantly affect veterans, such as prostate cancer, addictive disorders, trauma and wound healing, Post-Traumatic Stress Disorder, Traumatic Brain Injury, rehabilitation, and others, jointly with the Department of Defense, the National Institutes of Health, other federal agencies, academic institutions and the Department of Veterans Affairs.
