Social Media

Strike up social media conversations, build community and strengthen your post’s brand identity
Social Media

Your interactions with members can become conversations and then become your best recruiting tool.

- Listen and respond
- Understand your goals
- Understand your audience
- Decide on your platform(s) and use them
- Determine your online ‘personality’
- Execute
Social Media Characteristics

- **Participation** encourages contributions from everyone blurring the line between media and audience.

- **Openness** encourages voting, comments and the sharing of information.

- **Conversation** allows you to be part of a two-way exchange of ideas and opinions.

- **Community** joins you with other people who share common interests, such as a love of photography, a political issue or a favorite TV show.

- **Connectedness** is what most kinds of social media thrive on, making use of links to other sites, resources and people.
Types of Social Media

- **Blogs** are perhaps the best known form of social media -- online diaries.
- **Microblogging** is social networking combined with bite-sized blogging.
- **Content communities** organize and share particular kinds of content.
- **Social networks** allow you to build personal web pages then connect with friends.
- **Forums** are areas for online discussion, often around specific topics and interests.
Before you begin

Try to have one email account with one easy to remember password.

You will use this e-mail address for all the multimedia accounts you use.

Try to keep one password for ALL accounts.

As the day continues, you’ll see how important this is.

Blogging
Starting a blog

- Decide what you want to blog about
- Decide whether to host or not to host
- Find a domain name
- Find a web host for your blog
What to blog about

There are a lot of bloggers on the web already. If you want to attract readers, you are going to need to establish your credibility. Don't just blog about anything. Pick a topic you are passionate about. Something that you have lots of experience with.
Host or not to host

- **Free Blogging Services**
  When you start a blog with a free blogging service, you don't get your own domain. You get something like myblog.blogspot.com and you don't actually own the blog.

- **Host your own blog using WordPress free Blog software**
  This is the method offers more flexibility and freedom to do what you want. You will have your own domain name, like myblog.com. You can get this for as little as $30 per year. WordPress is excellent free blog software that allows you flexibility and room to grow.

**TIP:** You can use blogspot.com and purchase a URL for little cost from GoDaddy and mask myblog.blogspot.com to appear like myblog.com.
What’s best?

It depends.
There are lots of places to buy domains, but it's better to go with a reputable company.

**Godaddy** has a good domain search, and is currently offering domains for $7.99.

**Hover** may not have the cheapest registration prices, but they make up for it with abundant discount codes and stellar customer support.

**Namecheap, Gandi, Dreamhost, Name.com**
Web host

The easiest way to get a website is to go with a hosting company that offers "1 click installs", or instant installations for Blogging and Forum software. Blogs and Forums make it possible for someone with no experience to get good content up fast.

**BlueHost Blog Hosting** offers a "One-Click" WordPress installation with all of their webhosting packages. Plans start at about $5.00/month ($4.95/month)

**Dreamhost** is great for beginners. They’re know to care a bit more than the huge hosting companies. However, they cost a bit more, about $100 for a year.

**GoDaddy Blog Hosting has** a 'one click install' Economy WordPress hosting plan that is really a great deal ( $2.99 / month (only $36 / year) )

**Hostgator, HostMonster, Linode**
Ways to develop loyal community

- **ABCs: Always Be Commenting.** Reply to (almost) every blog comment.

- **Ask for blog comments.** Don’t be afraid to ask for comments.

- **Friend and acknowledge your commenters.** Once you begin to see regular readers commenting on the blog, seek them out and friend them in your social spaces.

- **Give out some link love.** Though linking out a lot is not always recommended as a good SEO practice, linking will get your blog noticed.
Managing with multiple authors

- Create unity with shared goals and guidelines.
- Create author guidelines.
- Assign one editor.
- Allow appropriate access.
- Stay organized with a calendar
Microblogging

Twitter
Twitter can be a great addition to your social media program. It allows you to easily share information about your post without the time-management and third party content concerns often associated with some other social media sites such as Facebook.

However, like any other marketing program, **Twitter** is only effective if you are an active participant.

Basics

- **Hashtag** is the ‘#’ symbol used to mark keywords or topics in a tweet. It was created organically by Twitter users as a way to categorize messages. (#socialmedia)

- **Trending topic** is a subject algorithmically determined to be among the most popular on Twitter at the moment.

- **Retweeting** is the act of forwarding another user’s tweet to all of your followers.

Engage

Post quality content regularly

When people like your post’s Page, they’re saying that they care about your what you are doing and want to know what’s going on.

Posting relevant content is the most important thing you can do to keep members interested.
Engage

- Write quality posts
- Make sure your posts are relevant to your members and post.
- Be friendly and conversational
- Share photos and videos.
- Ask questions or seek input
- Give access to exclusive information and specials
- Be timely by posting about current events, holidays or news
Influence

When members interact with your post’s Page, their friends can see it in their news feed as a story.

Expand your audience by promoting stories and news about people engaging with your Page.
80% of consumers say they are more likely to try new things based on a suggestion by a friend in social media.

When someone interacts with your Page by liking it or commenting on a post, a story is created.

**Sponsored story**

You can sponsor these stories to show them to the friends of your fans.

Page post like sponsored story
