

Gentlemen,

Please find attached information from the National Sub Committee on Resolution Committee. The Committee hopes that this information will be helpful to you and your Detachments. Please feel free to pass this information on to your Detachment contacts and Commission/Committee members remembering "That Knowledge Is Power". This information is a good overview of what a resolution is and how it is to be formatted. In the information you will also find some web site information that will also give you some good information on resolutions.

The Sub Committee on Resolutions do not have regularly scheduled conference calls. We will schedule conference calls when the need requires it. Myself or a member of the Committee is always available. If during your calls if you would like for myself or a member to attend your call, please let us know.

One item that I know the Sub Committee on Resolutions would really like communicated, is to keep us in the loop on any resolutions that are being written and/or that may come to the floor at the NEC Meetings or Convention. We feel that a review is very important to the passing of the resolutions. The Committee also believes that since we work for the NEC we feel that each NEC and A-NEC should have some time to review resolutions before a vote is taken. This would greatly help with the issues that sometime surround resolutions. It would also let all the NEC and A-NEC know that they do play an important part in the process.

Resolutions do not just fall from the sky and we all know they are a value to us and the organization. Resolutions take planning and a purpose. The writing of a Resolution does not always happen at the Commission and/or Committee meetings. When writing a Resolution it has been in thought and/or discussion for some period before the pen hits the paper.

With this all stated please keep us in the loop on your resolutions that are in the works so we can the Committee can help with any issue before they occur.

"Knowledge is Power Tour"

John Jennings
Chairman
Sub Committee on Resolutions
